Professional Summary

Backend Developer with experience in building scalable server-side applications, RESTful APIs, and database-driven systems. Strong focus on performance, security, and clean backend architecture.

Technical Skills

- Languages: Python, JavaScript
- Frameworks: FastAPI, Django, Express.js
- Databases: PostgreSQL, MySQL, MongoDB
- APIs: REST, JWT Authentication
- Tools: Git, GitHub, Docker, Postman

Projects

Backend API Platform

- Developed RESTful APIs using FastAPI.
- Implemented secure authentication and authorization.
- Improved performance through query optimization.

Inventory Management System

- Created backend services for inventory and order management.
- Integrated relational databases with ORM.
- Ensured data consistency and security.

Education

Bachelor of Technology in Computer Science

ABC Institute of Technology | 2021 – 2025

Additional Information

- Understanding of backend architecture and system design
- Experience working with APIs and databases
- Good collaboration and communication skills
